PRESS Release

EFISC-GTP appoints new Manager

Brussels, 6 February 2018 – After few months of transition, Fulvio Pernice, takes formally over from Peter Brattinga as EFISC-GTP Manager as of January 2018.

EFISC-GTP took on board Fulvio Pernice as Deputy EFISC-GTP Manager in August 2017. Fulvio has an educational background in agricultural sciences. He gained over 15 years' experience as food safety consultant in several sectors, where he in particular managed quality control systems, designed and implemented self-control management systems and audited sanitary conditions in food production.

"We are delighted that Fulvio Pernice joined us and is now taking full responsibility as EFISC Manager. He brings a wealth of experience that is very much helping his rapid integration within the association and on which we will be able to successfully build as we take EFISC-GTP further", said Carl Van der Auwera, EFISC-GTP President. He added: "I would also like to thank Peter Brattinga, former EFISC-GTP Manager, who decided to give his career a new orientation, for his dedication and achievements over the 8 years he worked with us." Peter Brattinga will remain consultant to EFISC-GTP.

For further questions, please contact N. Lecocq, Secretary General, EFISC-GTP *Aisbl* at +32 2 761 94 72.
